# Sales Bulletin

## Bondhus Reaches for the Sky!

2005 has been an exciting year for Bondhus. First, our new products (Wings & Flags, ProHold™ Tip tools, ComfortGrip handles and now GoldGuard™ plated tools) have been received extremely well by tool users.

Second, more and more tool users are demanding Bondhus tools for their most difficult applications. We even satisfied the urgent request from an engineer working for NASA.

He needed Bondhus to design and build a super small ballpoint tool for repairs to a vital piece of equipment on the International Space Station. Our engineers went from design concept to finished product in two week's time for this special space tool.

NASA engineers discovered what millions of professional tool users around the world already know - Bondhus tools work in even the most difficult circumstances!

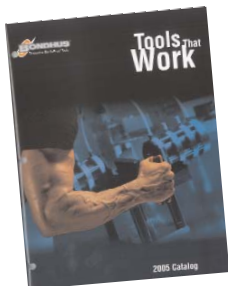

## Plan NOW for 2005 Coop Requests

All 2005 coop requests must be in by **December 15th** or money will not be reimbursed. Please pass this information on to the person that handles it for your company.

**New products** to check out in the catalog - GoldGuard™ tools, new ComfortGrip screwdriver handles and Wing & Flag tools.

## Bondhus Catalog / Pricelist has New Look

Enclosed is a copy of the new, redesigned

Bondhus Catalog/Pricelist. It has an entirely different look to it. The front of the book has 6 pages devoted to Bondhus high quality standards and information about the various product lines that we manufacture. This is a must read if you want to know what sets Bondhus apart from its competitors.

Be sure to glance over the Table of Contents. The products are categorized 2 different ways

- by tip style i.e. ProHold™, Star, Ballpoint, etc. and
- by product category i.e. L-wrench, Screwdriver, T-handle, etc.

Once again, the handy numerical listing of products will be at the back of the catalog.

All Bondhus Products are Made in U.S.A.

Bondhus, ProHold, GoldGuard, Protanium, and ProGuard are trademarks of Bondhus Corporation.
