## Screw-Holding Screwdriver

Safety and comfort in  
the tightest spaces

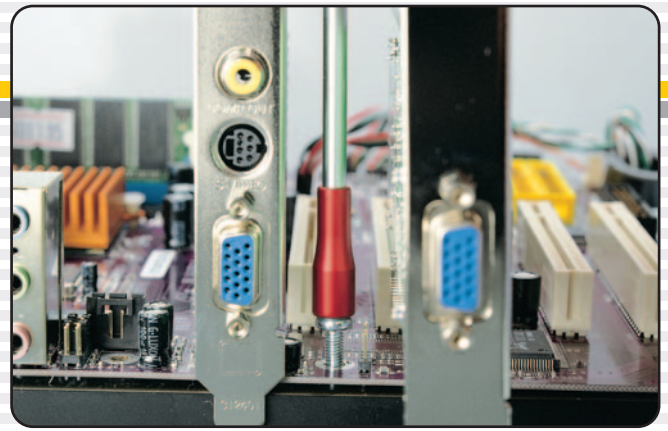

- safe hold and easy release of screws
- unique slim design
- no weakening of the screwdriver blade

## M-TEC

### Screw-Holding Screwdriver

M-Tec Screwdrivers  
for all widely used screws in instrument-making.  
Also available in sets.

The specialist for working on instruments and gadgets. Strong hold of screw puts all tight spaces within easy reach.

- time saving
- increased safety

High performance screwdriver blades produced from CMV steel, combined with our ergonomically refined 2component handle of series 500 make Felo M-tec the best screw-holding screwdriver for professional users.
