

Low profile short arm allows entry into tight spots

Smaller inside radius for tight spaces

Ballpoint tip on long arm for fast insertion or extraction

Standard L-Wrench can't fit in tight spots

Stubby L-Wrenches eliminate the need to trim and file the short arm. A trimmed L-Wrench introduces burrs, and still does not have the tight radius of a dedicated Stubby wrench.

Color Coded

- Inch
- Metric

High Torque Steel:

- Up to 20% stronger, with more torque and twice the wear resistance of standard grades of steel.

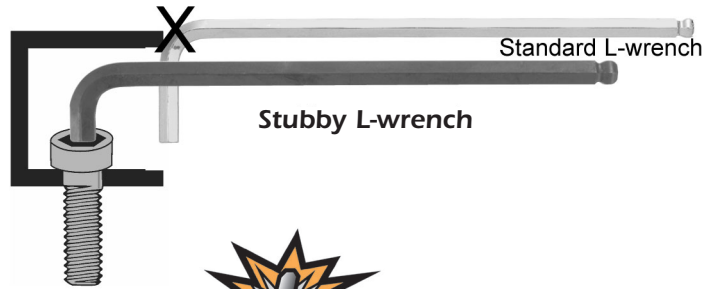

Corrosion-resistant finish:

- Environmentally safe, provides better tool grip, resists solvents and is 5 times more corrosion resistant than competitor finishes.

Stubby

Short Arm L-wrench

- Protanium® High Torque Steel**
- Up to 20% stronger than competitors
 - All the power you need
 - Tackles even the toughest jobs

- BriteGuard™ Finish**
- Exclusive plated finish
 - Corrosion resistant
 - Contamination free barrier

- ProGuard™ Corrosion Resistance for longer tool life**
- Prevents rust...5 times better than other leading brands
 - Longer lasting, cleaner tools
