"SMART" TOOL FOR ELECTRICAL APPLICATIONS

Bondhus, through its' German marketing partner - **FELO**, introduces a complete line of "E-Smart" tools for use with electrical equipment. The screwdriver blades are expertly machined from the finest European

Chrome/Molybdenum/Vanadium steel and heat treated to the highest possible

hardness levels to give tool users a lifetime of precision service. Each tool is individually tested to 10,000 volts to assure the integrity of the insulation. Tool can be used singly as a precision screwdriver, or can be used as a full-sized screwdriver when locked into the supplied handle.

FELO is a world leader in the development and manufacture of tools with interchangeable blades. These exciting **FELO** products can be ordered and shipped same day from stock at Bondhus Corporation.

Bondhus Corporation manufactures and distributes innovative, high quality, time saving tools for use in electronics, automotive, hobby, and machine tool industries.

For information on other innovative tools, visit our web site at www.bondhus.com
