### **FELO'S NEW BIT AND SCREW HOLDER** **For battery powered drills and screwdrivers** **PREVENTS DROPPED SCREWS**

Introducing a revolutionary bit holder that holds standard 1/4" shank bits **AND** the screw securely in place – NO MORE DROPPED SCREWS! This tool uses 2 rare earth magnets. One holds the bit in place, the other holds the fastener, securely. Named "Allstar", the bit holder is available individually or packaged with an assortment of popular bits. All bits are expertly machined from the finest European Chrome-Moly-Vanadium steel and heat treated to the highest possible hardness levels to give tool users a lifetime of precision service.

**FELO** is a world leader in the development and manufacture of tools with interchangeable blades and bits. These exciting **FELO** products can be ordered and shipped same day from stock at Bondhus Corporation.

Bondhus Corporation manufactures and distributes innovative, high quality, time saving tools for use in electronics, automotive, hobby, and machine tool industries.
