**WHEN PROFESSIONALS WANT THE BEST**

# OUT OF THIS WORLD

## NASA calls Bondhus...

When NASA needed a special hand tool for a critical repair mission aboard the International Space Station, they called Bondhus. The special tool developed by Bondhus employees and NASA engineers was successfully used to complete the repair on the Volatile Organic Analyzer (VOA) in 2005. NASA discovered what millions of professional tool users around the world

already know —

Bondhus tools work in even the most difficult circumstances. Whether in space or on an oil rig in the middle of the ocean, the tools they use have to work the first time and every time... they don't have time to go back for a replacement.

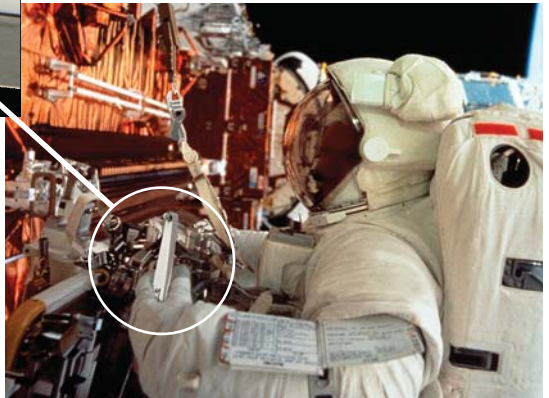

## +WORLD WIDE

Bondhus tools are made in the U.S.A. and are available in more than sixty countries.

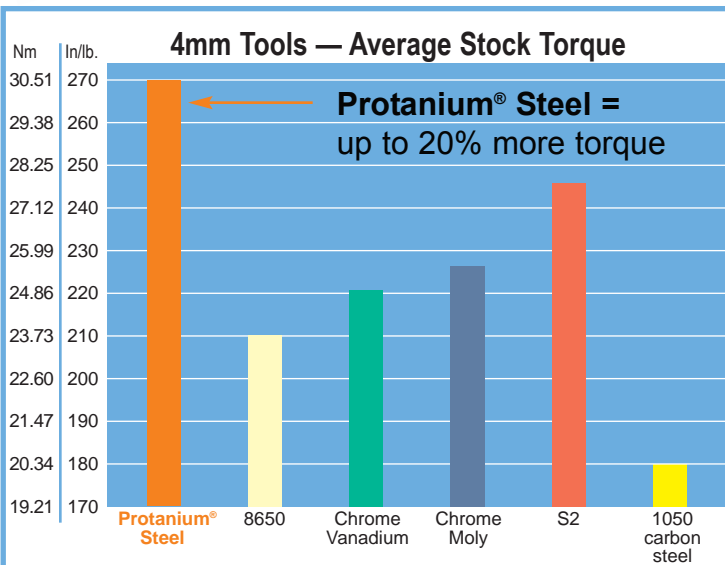

Bondhus designs a special hand tool for NASA by request

Bondhus makes the very best hex and star tools in the world (and out of this world)!

## HIGH TORQUE STEEL

- Unique alloy steel formulation
- Precise, optimized heat treating process
- Unmatched hardness, ductility, quality and durability

## STRENGTH/ NO SHATTER

- Inferior tools shatter under stress
- Inferior tools are dangerous
- Bondhus tools are stronger - more torque
- Bondhus tools break clean - do not shatter
- Bondhus is the safe choice

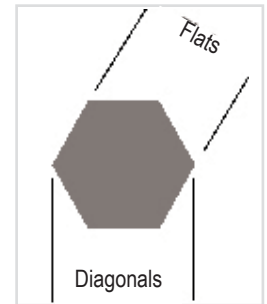

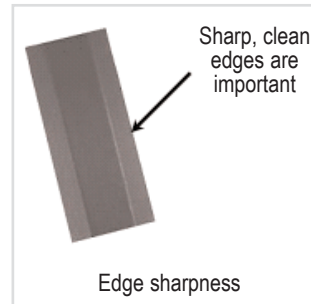

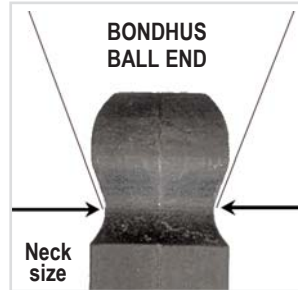

**Built to work...built to**

# PROFESSIONAL QUALITY • PRECISION MACHINING

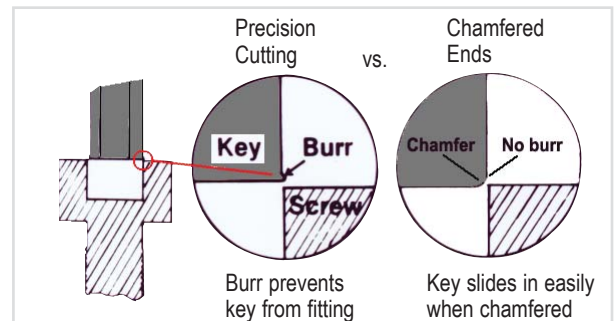

## Bondhus tools work better - last longer than competitor tools

- Ball end tips achieve superior torque
- Exceptionally high quality precise machining means:
  - Tools fit better - they last longer
  - Tighter tolerances
  - Perfect fit with fastener
  - Fastener heads exhibit less wear
- Stripping and breaking is reduced
- Balldriver® tools are carefully matched with handles for consistent torque capacity
- Optimal working angle up to 25°

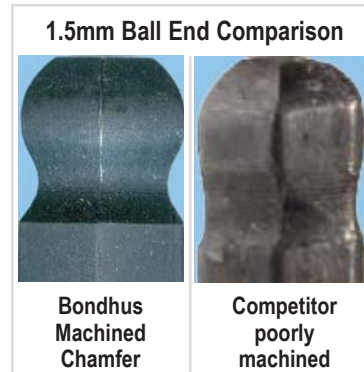

## CHAMFERED ENDS

The clearance between a hex key and the screw into which it is inserted is approximately .0005" or less on each side of the key.

Bondhus manufactures tools to the tightest tolerances in the tool industry.

Compare the precision of Bondhus tools to those of its competitors. Shown above are dramatic examples of the capability Bondhus has in machining intricate geometric shapes.

### Chamfered ends from Bondhus

- Easy insertion into screw heads
- Sharp clean edges extend tool and screw head life
- Absolutely no burrs

### Precision cutting used by competitors

- Imprecise cut creates burrs
- Tools don't fit in screw

## CORROSION PROTECTION

Three types of protection

- **ProGuard™** : Superior corrosion protection
- **GoldGuard™** : Real 14K gold finish
- **BriteGuard™** : Next generation finish

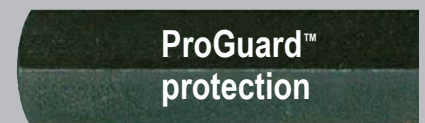

Available on all standard unplated tools

### ProGuard™ Corrosion Protection. . . tested and proven

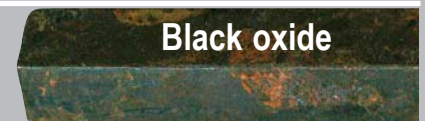

#### ProGuard™ protection = Superior protection

- Up to 5 times more protection than competitors
- Resists moisture and contaminants
- Protects tools from rust
- Available on all standard unplated tools

#### Black oxide = Limited protection

- Finish wears off
- Allows water to penetrate to tool

#### Plating = Some protection

- Flakes or wears off
- Allows water to seep in leaving tool unprotected

save time...built to last

# WHEN PERFORMANCE MATTERS ...BONDHUS DELIVERS

- High quality professional tools perform better
- Precise machining to fit the fastener
- Protanium® High torque steel with patented ProGuard™ finish
- Bondhus makes tough, long-lasting tools to get the job done
- Stop stripping/ruining fasteners

- Inferior tools waste time and money
- They break
- They wear prematurely
- They damage fasteners

- Screw head severely stripped
- Can't be removed with a hex tool
- Has to be drilled out and replaced

## BONDHUS = QUALITY = SATISFACTION

- Engineering and manufacturing excellence
- The hardest and strongest steel available
- The tightest tolerances attainable
- The most stringent quality control process in the industry
- The sharpest across corner dimensions available
- Bondhus is recognized the world over for quality tools

## LIFETIME WARRANTY

### Bondhus Tools have a Lifetime Warranty

Not all warranties are created equal and the tool industry is no exception.

- Bondhus tools are designed by toolmakers to work hard, save time and to last
- Only Bondhus offers an unconditional lifetime warranty
- Made in USA
